

RACCORDERIA FITTINGS RACORES

La raccorderia ARAG è realizzata con materiali di prima qualità:

- Raccordi con attacco a forchetta in Nylon®, con un'ottima resistenza meccanica ed una buona resistenza agli agenti chimici.
 - Raccordi standard, in Polipropilene, caratterizzati da una buona resistenza meccanica ed un'ottima resistenza agli agenti chimici. A richiesta disponibili anche in Nylon®.
- Filettature standard BSP (GAS) oppure a richiesta NPT.
A richiesta e per quantitativi, la raccorderia può essere eseguita in materiali diversi e con diversi standard di filettatura.

ARAG fittings are made of premium quality materials and include:

- Fittings with fork coupling in Nylon®, featuring optimum mechanical resistance and good resistance to chemical agents.
 - Polypropylene standard fittings, featuring good mechanical resistance and optimum resistance to chemical agents. Available also in Nylon® upon request.
- Standard BSP (GAS) or, upon request, NPT threads.
Upon request and for big quantities, fittings can be manufactured in different materials and with different threading standards.

Los racores ARAG están realizados con materiales de primera calidad:

- Racores de Nylon® con conexión de horquilla, con una óptima resistencia mecánica y una buena resistencia a los agentes químicos.
 - Racores estándar de Polipropileno, caracterizados por una buena resistencia mecánica y una óptima resistencia a los agentes químicos. Bajo pedido disponibles también de Nylon®.
- Roscas estándar BSP (GAS) o bajo pedido NPT.
Bajo pedido en cantidades, los racores pueden fabricarse en distintos materiales y tipo de rosca.

I raccordi vengono riconosciuti dalla sigla T e da un numero che indica il diametro del passaggio, come indicato nella tabella.
Forchetta e O-ring da ordinare separatamente.

These fittings are indicated with the symbol "T" and a number indicating the passage diameter, as explained in the chart.
Fork and O-ring to be ordered separately.

Los racores son reconocidos por la sigla T y por un número que indica el diámetro del pasaje, según lo indicado en la tabla.
Horquilla y O-ring a pedir por separado.

| Tipo Type Tipo | Passaggio Passage Pasaje |  | |
|----------------------|--------------------------------|---|-----|
| | | bar | PSI |
| T1 | 3/8" | 20 | 290 |
| T2 | 1/2" | | |
| T3 | 3/4" | | |
| T4 | 1" | | |

| Tipo Type Tipo | Passaggio Passage Pasaje |  | |
|----------------------|--------------------------------|---|-----|
| | | bar | PSI |
| T5 | 1 1/4" | 15 | 220 |
| T6 | 1 1/2" | 12 | 180 |
| T7 | 2" | 8 | 120 |
| T9 | 3" | 5 | 70 |

COME ORDINARE

HOW TO ORDER

COMO PEDIR

- Specificare i codici  +  +  Es. raccordo **105315** + guarnizione **G40013** + girello **2002030**
Specify codes  +  +  Ex. fitting **105315** + gasket **G40013** + fly nut **2002030**
Specificar los códigos  +  +  Ej. racor **105315** + junta **G40013** + tuerca para racor **2002030**

Legenda dei simboli - Symbols - Leyenda símbolos

Il raccordo può essere fissato ad una superficie, mediante due viti a testa esagonale da inserire nelle asole poste sulla parte superiore del raccordo.

The union is fastened to a surface with two hexagonal-head screws inserted into slots on the upper part of the union.

El racor puede ser fijado a una superficie por medio de dos tornillos de cabeza hexagonal para introducir en las ranuras colocadas en la parte superior del racor.

Schema di montaggio raccordi con tenuta tramite OR

Assembly diagram for fittings with OR seal

Esquema de montaje racores con asiento de sellado mediante OR

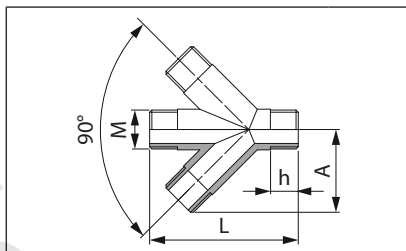

Il raccordo può essere fissato ad una superficie, mediante due viti a testa esagonale da inserire nelle asole poste sulla parte superiore del raccordo.

The union is fastened to a surface with two hexagonal-head screws inserted into slots on the upper part of the union.

El racor puede ser fijado a una superficie por medio de dos tornillos de cabeza hexagonal para introducir en las ranuras colocadas en la parte superior del racor.

ACCOPIATORI CON BLOCCAGGIO A CAMME

COUPLINGS WITH CAM LOCKING

ACOPLES CON BLOQUEO DE EXCENTRICAS

- Compatibili con gli accoppiatori MIL-C-27487
- Leve di bloccaggio in acciaio INOX per una massima resistenza meccanica ed alla corrosione (2 leve nei modelli fino a 3" e 3 leve nei modelli da 4")
- Il materiale impiegato, polipropilene rinforzato con fibra di vetro, assicura un'ottima resistenza meccanica e agli agenti chimici
- Su richiesta disponibili anche in Nylon® rinforzato con fibra di vetro
- Filettatura GAS (NPT a richiesta)
- Nelle versioni con filettatura GAS femmina è presente la sede conica per la tenuta con O-ring (compatibile con tutta la nuova produzione di raccorderia ARAG)
- Pressione di utilizzo max 9 BAR (130 PSI) per i modelli da 1/4" a 2"; max 5 BAR (75 PSI) per i modelli da 3" e 4"
- Guarnizioni di tenuta standard in EPDM (Viton® e NBR a richiesta)
- Suitable to couplings MIL-C-27487
- STAINLESS STEEL locking levers for maximum mechanical strength and corrosion resistance (2 locking levers up to 3" models and 3 levers for 4" models)
- The material used, fibreglass-reinforced polypropylene, ensures excellent mechanical strength and good resistance against chemical agents
- On request, also available in fibreglass-reinforced Nylon®
- BSP threads (NPT on request)
- A tapered seat for the O-ring seal is fitted in the female thread BSP versions (compatible with all new ARAG fittings)
- Max. working pressure 9 BAR (130 PSI) for the 3/4" to 2" models; max. 5 BAR (75 PSI) for the 3" and 4" models
- EPDM standard gaskets (Viton® and NBR on request)
- Compatibles con las conexiones MIL-C-27487
- Levas de bloqueo de acero INOX, máxima resistencia mecánica y a la corrosión (2 levas hasta modelos de 3" y 3 levas para el modelo de 4")
- El material utilizado, polipropileno reforzado con fibra de vidrio, asegura una óptima resistencia mecánica y a los agentes químicos
- Bajo pedido están disponibles en Nylon® reforzado con fibra de vidrio
- Roscas disponibles GAS (NPT bajo pedido)
- Las versiones con rosca GAS hembra incorporan el asiento conico para la estanqueidad con O-ring (compatible con toda la nueva producción de racores ARAG)
- Presión de utilización Máx 9 BAR (130 PSI) para los modelos de 3/4" a 2", máx. 5 BAR (75 PSI) para los modelos de 3" y de 4".
- Juntas de estanqueidad en EPDM (Viton® y NBR bajo pedido)

REGOLATORI MODULARI MODULAR REGULATORS REGULADORES MODULARES

Regolatori modulari per macchine a basso volume

La modularità del sistema offre soluzioni per le più disparate configurazioni di macchina, garantendo nel contempo altissima precisione d'esercizio. La ghiera graduata consente di preimpostare agevolmente i parametri di lavoro per ogni tipo di trattamento.

Racores de terminación con conexión de horquilla en el capítulo: FITTINGS

Modular regulators for low volume sprayers

The modularity of the system offers solutions for any kind of machine's configuration, granting at the same time very high precision of exercise. The graduated nut allows the easy setting up of working parameters for every kind of treatment.

Reguladores modulares para máquinas de bajo volumen

La modularidad del sistema ofrece soluciones para las más disparatadas configuraciones de máquina, garantizando en el mismo tiempo una muy altísima precisión en el ejercicio. La tuerca graduada permite imponer los parámetros de trabajo para cada tipo de tratamiento.

RACCORDI AD INNESTO RAPIDO PER TUBO RIGIDO QUICK-COUPLING FITTINGS FOR RIGID PIPE RACORES DE ENGANCHE RÁPIDO PARA TUBO RÍGIDO

- Realizzati in resina acetica e particolari interni in acciaio Inox
- O-ring interno in NBR
- Per tubi in metallo o in plastica
- Rapida installazione senza ausilio di attrezzature, **non è necessario filettare il tubo**

- Made of acetalic resin (inside parts in inox stainless steel)
- NBR internal O-ring
- For metal and plastic pipes
- Fast assembling without equipments; **no needs to thread the pipe**

- Hechos en resina acetica con componentes interiores en acero Inox
- Junta interiora de NBR
- Para tubos de metal y de plastico
- Instalacion rapida sin auxilio de equipos, **no hay que enroscar el tubo**
